PARTNERSHIP

Our mission is to:

PARTNER, INNOVATE, & DELIVER... WITH PASSION.

LABEL INNOVATION INC.

- Is a custom label manufacturer and converter of specialty components, tapes and labels.
- Since 1979, we have delivered high quality products and maintained excellent customer service.
- We use flexographic print technology to produce conventional pressure sensitive-based products and complex labels.
- We convert raw materials (foam, rubber, plastics, etc.) into unique sub-components and specialty products.

Our vision is a win-win partnership that achieves the best in product and service in our 4 key markets:

Medical

Technology

Security

Industrial

STANDARDS

- We are ISO 9001 and Controlled Goods certified.
- We produce medical grade products that require the highest standards.
- We work with customers to ensure all applicable regulations and standards are met.
- We meet or exceed stringent statistical requirements and tight manufacturing tolerances.
- We have a dedicated Quality Assurance department to assure continued product quality.

COMPLEX PRODUCTS

- New and creative approaches to materials usage and production methods.
- Close customer consultation.
- Prototyping and design capabilities for complex projects.
